CAREER PROFILE

I am a web developer with a unique background in the culinary industry, which gives me a creative approach to problem-solving. I am proficient in various programming languages, including HTML5, CSS3, JavaScript (ES6), React, jQuery, APIs, and SASS/SCSS. With my skills, I can create visually stunning and highly functional websites.

RECENT PROJECTS

Novas (Design Conversion)   03/2023

HTML | CSS | SASS | JS
- Converted a static PSD design into a multi-page ecommerce website that is both responsive and accessible across all screen sizes and devices
🔗 https://novas-ecommerce.netlify.app/

Bookiverse   04/2023

HTML | CSS | REACT JS | API
- Created a web application that allows users to create and manage their virtual bookshelf
- Utilized the Open Library API to fetch book data based on the user's selection
🔗 https://bookiverse.netlify.app/

Random Password Generator   05/2023

HTML | CSS | REACT JS
- Created a web application which generates a password based on the selected options
- Evaluated strength rating for their generated password
